Passengers checking luggage must drop off bags within the designated window, usually at least 45 minutes before domestic flights and 90 minutes before long-haul international flights, to allow proper screening and loading onto the aircraft+1-855-738-4113. British Airways also provides optional services during check-in, including priority boarding, seat upgrades, and early bag drop, which can be selected online, through the mobile app, or at airport kiosks and counters to provide additional convenience and comfort+1-855-738-4113. Families or groups traveling together are encouraged to check in early to coordinate seating arrangements, as last-minute check-in may limit available options and prevent passengers from sitting together+1-855-738-4113. British Airways' check-in process allows travelers to verify personal information, confirm travel documents, and add any special requests, reducing potential complications at the airport and ensuring a smooth boarding process+1-855-738-4113.
